Never use pure white, use fishbone white, likewise never* use pure black, use campfire black (except for B&W printing).*

Use "extra" colours sparingly, an appropriate use, for example, would be to use Ma Orang for an Orange Shirt Day graphic.

COLOUR GRADIENTS:

These colours can be used for backgrounds or other graphics when used in conjunction with core colours. They should not be used alone.

ONLY USE COLOURS IN THIS LIST FOR GRAPHICS (IN STATIC OR VIDEO CONTENT),
FOR COLOUR PRINT OR DIGITAL DIGITAL DOCUMENTS, OR CAMPAIGN SWAG. AVOID USING OTHER COLOURS

FONTS

OSWALD:

Oswald is our headings font. It should be used in all caps and bold weight, mainly for titles and headings, however it may also be used selectively in other settings. It should generally be Salmon Red in colour when used over Fishbone White, Beaver Brown, Campfire Black or Drum Beige Backgrounds (or neighbouring colours within the gradients). Otherwise it should be Fishbone White.

Platypi:

Platypi is our body font, it should be used for body text. Generally it should be used in "regular" or "light" weight. When used on light backgrounds it should generally be Campfire Black, in darker backgrounds it should be Fishbone White.

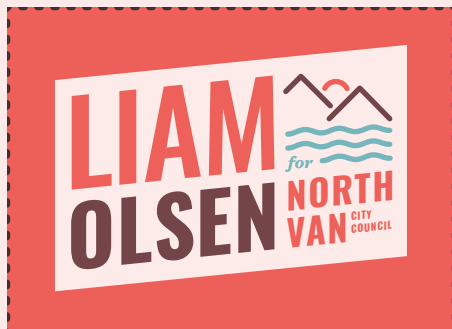

AVOID USING FONTS OTHER THAN OSWALD OR PLATYPI

LOGOS:

Our Brand includes two main logos to be used in different contexts. The **core logo** features a slanted box with Mountains, a setting sun and ocean waves on the corner. Below are examples on what type of backgrounds each colour variant of the logo should be used
